WHY INDIANA GHOST WALKS & TOURS?

COMMUNITY

Ghostly tales spun around historical happenings and people make the unknown a little closer to us. We get to know those who roam the earth after death as someone who could be a sister or a friend. In Victorian times, people would picnic in cemeteries and converse with the deceased as if they were sitting at a comfortable dinner table.

We do not use actors nor do we use our tours or interest in the paranormal as a means to beg for investigation time by invading business owners' or personal privacy.

Although there are groups who claim to be ghost researchers and storytellers, we are 100% dedicated to the art of year round storytelling and we are professional paranormal investigators.

Everything we investigate, document and research is done according to accepted scientific research methods.

We strive to keep our tours to manageable sizes. Instead of tours surrounded by many dozens of people and listening to loud speakers or not hearing at all, we believe the special atmosphere of our true ghost stories and fascinating history deserves a more intimate atmosphere.

Unseenpress.com, Inc believes in giving back to the community and a portion of our proceeds goes to benefit cemetery restoration and other projects within the Indiana communities we live and work in. Unseenpress.com, Inc is a proud member of the **Indianapolis Convention and Visitors Association (ICVA)** and the **Hamilton County Convention and Visitors Bureau (HCCVB)**.
